

Cessna Revision Status Checklist

NOTES

The following is a list of all manuals, checklists and Pilot Operating Handbooks available from Cessna Aircraft Company. To verify that the current manual is being used, first compare the part number on the paper manual title page with the number in the Part Number column. Then check the Temporary Revisions column for part numbers of all applicable Temporary Revisions. "N/A" Indicates no Temporary Revisions are applicable to the manual. **WARNING:** Manuals are not complete and current unless all applicable Temporary Revisions (TRs) are incorporated with the manual.

Please be sure to read the instructions at the top of the page for accurate use of the Checklist, and check the appropriate Temporary Revisions page wherever "TR" is listed in the Temporary Revision column.

Please note that the "Date of Change" column Indicates the date of the latest change to a manual. If a part number is noted in the "Temporary Revision Part Number" column, the last Temporary Revision part number listed is the latest change to the manual. In that instance, the "Date of Change" will match the last Temporary Revision date, **NOT** the date on the title page of a paper manual. To order individual Temporary Revisions, applicable to your manuals, please contact Cessna Customer Services at (316) 517-5800.

Examples of the manual numbering system: Paper: D2065-3-13

Service Bulletins issued after the most recent revision to the Parts Catalog or Service/Maintenance Manual shall be considered an amendment/revision to the Manufacturer's Service/Maintenance Manual or Instructions for Continued Airworthiness, and must be accomplished for ongoing airworthiness compliance as required per FAR 43.13.

To order an individual Temporary Revision, Service Bulletin Subscription or a current list of Cessna service bulletins applicable to your aircraft, please contact Cessna Customer Services at (316) 517-5800.

Cessna Revision Status Checklist 100~200 Series Maintenance/Service Manuals

The following is a list of all single-engine maintenance/service manuals available from Cessna Aircraft Company. To verify that the current manual is being used, first compare the part number on the paper manual title page with the number in the Part Number column. Then check the Temporary Revisions column for part numbers of all applicable Temporary Revisions. "N/A" Indicates no Temporary Revisions are applicable to the manual. **WARNING:** Manuals are not complete and current unless all applicable Temporary Revisions (TRs) are incorporated within the manual.

Cessna Revision Status Checklist Avionics Installation Service/Parts Manuals

The following is a list of all Avionics Installation Service/Parts Manuals available from Cessna Aircraft Company. To verify that the current manual is being used, first compare the part number on the paper manual title page with the number in the Part Number column. Then check the Temporary Revisions column for part numbers of all applicable Temporary Revisions. "N/A" Indicates no Temporary Revisions are applicable to the manual. WARNING: Manuals are not complete and current unless all applicable Temporary Revisions (TRs) are incorporated with the manual.

Part Number	Model Year	Model Series	Temporary Revision Part Numbers	Date of Change

Cessna Revision Status Checklist CD/ DVD

The following is a list of all CD/DVD digital information disks available from Cessna Aircraft Company. To verify that the current CD or DVD is being used, first compare the part number on the CD or DVD cover with the number in the Part Number column. Then check the Temporary Revisions column for part numbers of all applicable Temporary Revisions issued since the latest CD release. "N/A" Indicates no Temporary Revisions are applicable to the CD/DVD since the release date of the CD/DVD. WARNING: Digital Manuals are not complete and current unless all applicable Temporary Revisions (TRs) are incorporated and used in conjunction with the digital manual.
